Interior

### COVERAGE

1 L  
8-12 m<sup>2</sup>

### APPLICATION

Brush

### DRYING TIME

3-4 hours

### TOOL CLEANING

Methylated  
Spirits

### Product use

Liberon Honing Oil is ideal for cleaning and reviving oilstones which have become dirty or clogged with greasy oil. Liberon Honing Oil is specially formulated to clean and lubricate the oilstone while sharpening tools.

### Application

Apply liberally to the oilstone before sharpening tools. Do not allow the oil stone to become dry during sharpening. Wipe stone clean immediately after tool sharpening.

**Important:** Only use on flat static oilstones. Do not use on any mechanical sharpening machinery.

### Maintenance

Use regularly to keep your stone and tool in good condition.

### Packaging

Honing Oil is available in 250 ml containers.

### Health and Safety

Harmful. Contains aliphatic solvents. Flammable. Harmful: may cause lung damage if swallowed. Keep out of the reach of children. Do not empty into drains. Use only in well-ventilated areas. If swallowed do not induce vomiting: seek medical advice immediately and show this container or label.
